Blank flashcards

Print this sheet and cut out the cards. Fold each card along the dashed line if you want the back hidden, or write on both halves and keep the card open.

1. Write only one item on each card, and keep both sides short.
2. **Front:** one word, short phrase, date or grammar point, in English.
3. **Back:** a short meaning in English (a simple translation only if you need it), and one short example sentence.
4. You make your own pack. These cards are blank on purpose. A few model cards are shown on the sequence page.
