POUR LES ÉLÈVES, TEXTE A2 (ENVIRON 90 MOTS)

A painting of work

Laurent Proux is a contemporary French painter. He paints the world of work. In this painting, we can see young people and adults. They are in a school workshop. They are working. There are workbenches and cardboard boxes. There are large windows. We cannot hear what these people are saying. We can only imagine their words. Look at the painting carefully. What do you think they are making? Who do you think they are?

POUR LES ÉLÈVES, TEXTE B1 (LE TEXTE A2, PLUS CE SECOND PARAGRAPHE, ENVIRON 80 MOTS DE PLUS)

A painting of work

Laurent Proux is a contemporary French painter. He paints the world of work. In this painting, we can see young people and adults. They are in a school workshop. They are working. There are workbenches and cardboard boxes. There are large windows. We cannot hear what these people are saying. We can only imagine their words. Look at the painting carefully. What do you think they are making? Who do you think they are?

Why paint a workshop today? Because work is a big part of our lives, and art can help us look at it with attention. In a school workshop, young people and adults often work side by side. The painting does not tell us the names of these people, and it does not tell us the

exact object they are making. That is our task: we look, we describe what is there, and then we hypothesise. We speak as observers, not as inventors of false facts.

POUR LES ÉLÈVES, QUESTIONS (A2 : QUESTIONS 1 À 5. B1 : TOUTES LES QUESTIONS)

Read the text once. Then read it again and answer.

1. Is Laurent Proux a painter of the past or a contemporary painter? Write the words from the text.
2. What world does he paint?
3. Where are the people in the painting?
4. Name three objects or elements we can see, according to the text.
5. True, false, or the text doesn't say: The painter tells us the exact words of the people in the workshop.
6. (B1) What does the text ask us to do first, before we hypothesise?
7. (B1) In your own words, why can a painting of a workshop be useful for us?

Activité 3. Hypothesise (12 min). Expression orale en continu, puis un échange en binôme.

POUR LES ÉLÈVES

Look at the painting. These questions have no single correct answer. Use **I think..., Maybe..., They might be...**

1. Who are these people? Students, tutors, both?
2. What are they making?
3. What time of day is it? How do the large windows help you decide?
4. What would two people in the painting say to each other? Prepare four short lines, in English, and be ready to say them to the class.

Activité 4. Building your vocabulary (8 min).

POUR LES ÉLÈVES

Building your vocabulary

Copy these words into your notebook. Then match each word to its meaning.

1. a workshop

2. a workbench
3. a cardboard box
4. a window
5. a tutor
6. an apprentice
7. at the moment
8. to hypothesise

Meanings:

a. a person who is learning a job b. a table where people work with their hands or with tools c. a room or building where people make or repair things d. a person who helps and guides you at work or during PFMP e. now, at this time f. a glass opening in a wall that lets light in g. to say what you imagine, when you are not sure h. a container made of thick paper, used to store or carry things

Point de langue et trace écrite (6 min).

POUR LES ÉLÈVES. TRACE POUR LE CAHIER

Present continuous, for a scene

We use the present continuous to say what is happening now, in the painting or in the workshop: **subject + am / is / are + verb-ing**.

- I am working in the workshop.
- He is checking the box.
- She is standing near the workbench.
- They are working in front of the large windows.
- What are they doing? They are working.
- What is he making? I think he is packing a box.

To hypothesise:

- I think they are students.
- Maybe they are preparing an order.
- They might be apprentices.

Travail à la maison (2 min pour donner la consigne).
